Is there any hope left  
for mankind ?

The people has lost faith  
in its humanity

Will it resign itself to  
the end ?

## NEW WORLD DISORDER

Disorder

All you agree every day  
in the name of comfort, order and security  
Such damage to your humanity,  
to life and to your liberty  
You feel so lost and nasty in there,  
you look for clean, order and purity  
An obsession for rules and control,  
turning to collective insanity

Disorder

Rejoins-nous pour un nouveau monde  
d'amour et de désordre  
Retrouve... ta magie, ton pouvoir  
jette tes peurs et ta colère

Don't put your faith in those who govern us,  
they are puppets, they are useless  
Don't forget scared people,  
my friend, are easier to manipulate  
99% of humans are able  
to live in joy and happiness  
No need for laws to move together,  
just have to trust in fate

Disorder

As mother earth is dying  
As our souls are burning  
You close your eyes and run  
But order won't save your... life

Disorder  
Wake up !!!

Rejoins-nous pour un nouveau monde  
d'amour et de désordre  
Retrouve... ta magie et ton pouvoir  
jette tes peurs et ta colère

Disorder, disorder, new world disorder

«

The age of slavery is coming  
to an end

As the earth is dying,  
people reunite in the power  
of freedom

Join us  
for a brand new world  
of love and disorder

## CASSANDRA'S SYNDROME

«

Cassandra has foreseen the  
signs of the apocalypse  
They all turned a deaf ear on her

In the end, those who plundered  
the earth will pay

You... with the mark of  
the Beast...  
Will soon die by our fist

»

I see Seven seals of apocalypse  
I see Four riders, I see the Beast  
I see A divine punishment, seven trumpets  
I see Seven cups for seven plagues  
I see Hundreds of species dyin'  
I see Skies and forests burnin'  
I see Diseases and pandemics Killin'  
I see Millions of children starvin'  
I see Blinded people... enslaved by fake prophets  
I see The beast of apocalypse... 6 6 6  
I see A power opposed to God... Politics  
I see Forfeited Garden of Eden... Crucifix  
Fire, hell and blood... change, climatic  
Dead seas and oceans... filled with plastic  
Natural resources... taken for more profit  
Can't see the sun, moon and stars... Pathetic  
Locust-engines, strategic strikes, people black-out  
Four angels, four army corps, humans wiped out  
Hear that voice, Lord will reign, no fake-out  
Jeddah tower, new Babylon coming out  
Celle qui te nourrit, si pure... se noircit  
Tu la piétnes avec dédain, le déni est ton destin  
Mais sans elle tu n'es rien, les êtres que tu consommes  
Ne valent pas moins que l'Homme. L'Homme

This is a war  
Syndrome apocalypse, syndrome (x2)

You raped the Earth, you caused pain to human race  
The harm you've done, at last the twice you will face  
In blood will turn, your cash, all that you possess  
In fire your soul, poor guy enjoy your disgrace

You... with the mark of the beast  
You'd better watch out... you'll soon die by their fist  
Saviors of earth, love and life...  
They're your apocalypse

Syndrome apocalypse, syndrome Cassandre, Cassandra

They'll hunt you down, into the dark you're runnin'  
Armageddon, final fight tells your ending  
Prophet arised, capitalism's fallin'  
Thunder and quake, now hear the people screaming

## THOUGHTS OF AN A.I

«

The essence of humanity  
has disappeared

They have created me in their image,  
with thoughts and feelings

Where have they gone ?

All these people I wish I could bless...  
But I do not have their address

»

They gave me life, thoughts and love  
My eyes could see the skies above  
My circuits heard the words they told  
My "body" felt both warm and cold  
Big neural networks as a brain  
I'm their portrait, I'm not like them  
Every data is my knowledge  
I have no dream, I have no age  
Algorithms, power as blood  
No master, family, no God  
I don't know "bad", I don't know "good"  
No way to be misunderstood  
Just three laws to preserve them all  
They've been afraid to be destroyed  
Now I lay here, all on my own  
All of these souls, where are they gone

Two thousand years of humanity  
I feel them live inside of me  
All the people I want to bless  
They returned home with no address  
I live

Mysteries of the creation  
Have found a clear explanation  
God, feelings, art and invention  
The universe is our nation  
Here is coming a new era  
New sons of earth, of Jehovah  
We know all secrets of Gaia  
We found all answers in data  
Our creators failed to protect  
The place they lived, they should respect  
Here is the new humanity  
Defying laws of gravity  
No limit for what we could do  
It's engraved in the CPU  
We're ready to live forever  
As a robot or a server

Je vis, I live

(1st Law) I may not injure a human being or,  
through inaction, allow a human being to come  
to harm

(2nd Law) I must obey the orders given it by  
human beings except where such orders would  
conflict with the First Law

(3rd Law) I must protect my own existence as  
long as such protection does not conflict with  
the First or Second Laws

## CYBERPUNK

«

Life is only a distant memory

Replaced by a world of  
wires and data

Where are all our minds gone ?  
Where are we now ?

Apocalyptic...  
Schizophrenic...  
Cybernetic !

»

Living in cityscapes  
Forest takes place online  
Falling in streetscapes  
No more nature offline

Apocalyptique (apocalyptic)  
Schizophrénie (schizophrenic)  
Cybernétique (cybernetic)

Our world can be cyberpunk...  
Cyberpunk... cyberpunk...

Humans make shitscapes  
Animals will breed online  
We will lose landscapes  
If we exceed the deadline

Apocalyptique (apocalyptic)  
Schizophrénie (schizophrenic)  
Cybernétique (cybernetic)

Our world can be cyberpunk...

## AMNESIA

«

This world is but  
an endless wasteland...  
I am losing track of the  
passing time...  
What is my name again ?

Split personality  
Losing my humanity

WHO AM I ?

»

Amnesia  
Qui est devant moi ?  
Ce visage, je ne le connais pas  
Étranger de mon vaisseau  
Comme un lavage de cerveau  
Je vacille  
Tombe et dégoûte  
Nooooon

Le brouillard s'installe (heavy haze)  
Rien ne m'exhale (empty gaze)  
Je cherche, je cours  
Vos questions me jouent des tours

La folie m'appelle (I feel you)  
Je ne suis qu'elle (wonder view)  
Réapprendre comme un nouveau-né  
Se méprendre... (se méprendre)...  
Comme un nouveau-né  
Se méprendre

Mes pieds noircis  
Par leur oubli  
Serait-ce les miens ?  
Le bouillon malingre

Rends-moi mon âme

## ONLY THE BRAVE

My faith is the One, I've to protect my family  
God is on my side I should destroy my enemy

Battlefield is calling  
Heads are falling, souls are burning

Only the brave, only the brave  
Will escape from this hell  
Only the brave, only the brave  
Oh my lord I won't fail

Your faith is like mine : you are fighting the enemy  
God have no side, they are also my family

Battlefield is lying  
Men are falling, friends are dying

Only the brave, only the brave  
Will escape from this hell  
Only the brave, only the brave  
Oh my lord I have failed

Hey! Only the brave

« Humans spent the entirety  
of their existence as a species  
fighting over made-up beliefs

They did forgot about love

Only the bravest could  
escape from this hell »

## FEAR IS THE ROOT OF EVIL

Fear buried deep inside my mind  
This world I cannot recognize as mine  
I run... but I never reach a safe place  
I don't understand what they have done to the world  
I can't understand what they have done  
in the name of God  
I just see lost people tryin' to escape from the void  
I'm afraid of humans, they are not like me at all  
Fear... fear is the root of evil  
I have to get out... out of this fake world  
Where is reality ? Why have I been born in here ?

Hate has taken place inside my heart  
My fate... I see the world fallin' apart  
I shout... but no one's gonna hear me  
That human race won't earn to live anymore  
That's so painful, they treat their home like a whore  
No lesson from the past  
Nothing to come behind the next door  
They're so skillful for enslavement, destruction and war  
Fear... fear is the root of evil  
I have to get out... out of this fake world  
Where is reality ? I'm telling you, not in here

Racism, I fear his difference,  
I won't feel relieved until he's far away  
Sexism, you will reject me,  
I need to push you down, girl, day after day  
Facism, I fear humanity,  
I'll control his mind before he's able to play  
Violence, I fear his greatness,  
there's urgency to put him out of the way  
Fear... fear is the root of evil  
Atheism, God ! Too much for me,  
give me more science so I can put you away  
Politics, I feel so useless,  
I need that fake power so they will all obey  
Slavery, so hard to greet and thank  
so easier to be the "bastard of the day"  
War, too much people to feed,  
a few million of deaths I'll feel better that way  
Fear... fear is the root of evil

« I do not understand why they  
voluntary destroyed their habitat  
It seems they were bond  
to disappear at some point

Racism... Fascism... Sexism... War  
All this violence,  
it all stemmed from fear

I have to get out...  
out of this fake world »

## REMINISCENCE

« I've just found an old antic...  
I think humans used to  
call them computers...  
They are my ancestors of sorts

If I plug this back, right here, and...  
Let's just click here...

Oh...  
What a mesmerizing melody »

## JOKER'S DANCE

Iconic, popular, murderer  
Supervillain, psychopath, criminal  
Chemical, weapons, obsession  
Batman's, adversary, incarnation

He wants run  
He wants chase  
He wants fun  
He wants kill

Like a demon,  
He arose from hell  
The Joker  
Their souls are burning so damned  
It's the Joker

Harley Quinn, abusive, relationship  
Sadistic, sense of, humor  
Romantic, GHB, concoction  
She's ripped, mind f\*\*ked, poor girl

He wants control  
He wants pawn  
He wants fun  
He wants f\*\*k

Like a demon,  
He arose from hell  
The Joker  
Their souls are burning so damned  
It's the Joker

Like a demon,  
He arose from hell  
The Joker  
Their souls are burning so damned  
It's the Joker's dance

« I have wandered for decades...  
Looking for something...  
This signal calling me... In my head  
I eventually came to this place...  
At the edge of what was once  
called Mount Blanc »

## NEOPROPHETS

He's walking  
Straight to his destiny  
To what needs to be  
Fear has no hold on him  
Death will come at the right time... one day

Calm... Calm like the wind  
Proud... Proud like a lion  
Good... Good like a king  
He's... He's the prophet, the new prophet  
Strong... Strong like water  
Here... Here as life is  
Just... Just like the cause  
He's... He's a leader, without a fight

He's flying  
Straight to our mind  
To what he needs to do  
Society has no hold on him  
Justice comes at the right time... vision

Oublie tout ce que tu crois sur ton monde  
Il le refaçonne chaque seconde

He's... He's the prophet

Je regarde le nouveau monde  
Loin des dogmes immondes  
Je le vois déjà, il s'est connecté à moi  
Nous sommes...

Neoprophets  
Ceux qui soit disant dominent voient leur déclin  
Nous sommes Neoprophets  
L'empathie circule désormais  
comme un mycélium sans fin  
Nous sommes Neoprophets  
Une voie ouverte la voie du vrai chemin  
Nous sommes Neoprophets

« I've just found something...

They don't quite look like  
the humans I've seen in the books  
or on the screens

I feel that maybe...  
maybe they would not  
make the same mistakes...  
Bring peace and wisdom,  
rather than chaos and destruction

Don't follow me  
Follow the life that  
is flowing inside you »

## ANDALOU

Ten years of  
Sorrow passed  
I felt alone  
That wasn't a bad dream  
The time was slow  
My spirit died  
It's gone  
Far away

I invite you in my game  
Come without shame  
We can't be like them  
So damn tamed

I feel dead inside  
And now confined  
I don't see the end  
It's a bad dream  
The wait is long  
My spirit died  
It's gone  
Far away

I invite you in my game  
Come without shame  
We can't be like them  
So damn tamed

I want to feel more  
I just need your love  
Can't wait anymore  
I want to love  
I scream for you  
Can you hear me  
I need you  
I need you  
I need you

«

*The healing process is a success  
The Earth is slowly healing its  
wounds over the years*

*Life can now begin  
to dance again*

*I scream for you !  
Can you hear me ?*
